

Adverse childhood experiences (ACEs) Ohio impact project Conceptual framework

Equity

All young Ohioans live in safe and stable families and communities with positive supports for leading a long and healthy life. To ensure all Ohio's children achieve their full health potential, historical and contemporary discrimination in all its forms, including racism and ableism, should be eliminated.

Brief 1
Adverse Childhood Experiences (ACEs) in Ohio: Health impact
 Dec. 2019 – May 2020

Brief 2
Adverse Childhood Experiences (ACEs) in Ohio: Economic impact
 April – July 2020

Brief 3
Adverse Childhood Experiences (ACEs) in Ohio: How can we improve?
 June – Nov. 2020

Short-term outcomes

- 1 Policymakers and other stakeholders understand the health and economic consequences of ACEs
- 2 Policymakers and other stakeholders are aware of evidence-informed and cost-effective strategies that can be implemented to prevent and mitigate the impact of ACEs

Mid-term outcome

Policymakers and other stakeholders use information to implement a comprehensive approach to prevent and mitigate the impact of ACEs in Ohio through:

- Allocation of resources to evidence-informed strategies
- Advocacy and policy change

Reduced ACEs exposure

Long-term outcome

- Improved overall child health and wellbeing
- Reduced cost burden of ACEs in Ohio

Greater HPIO influence

Many factors influence outcome

Note: Multi-sector advisory group to inform development of policy briefs and a resource page. Timelines subject to change.
